## TS040 HYBRID

TOYOTA Racing has enjoyed a successful start to this year's World Endurance Championship. So what better way to keep you revved up until the next race in September than with a few fun facts about our race winning cars and the whole team at TOYOTA Racing?

7 wins since our debut WEC season in 2012

During Le Mans, the TS040 HYBRID has generated 2000MJ of energy.

That's enough to power the average home for nearly **45 days**

TOYOTA Racing will travel over 110,000 km between WEC tests and races.

This is around 1/3 the distance to the moon or 2.75 times around the world.

The minimum weight of the TS040 HYBRID is

**870kg** excluding the driver.

That's the weight of a full size adult African Buffalo!

Both TS040 HYBRIDs will cover

over the racing season.

The TS040 HYBRID generates 6MJ of energy per lap.

That's like the amount of energy a human body gets from eating 1100 burgers.

Throughout a race weekend, the drivers are allowed to eat what they want, but they focus on high-energy produce like fruit, pasta and cereal bars.

**25**

Nationalities in the entire TOYOTA Racing team
